

## History of Amsterdam Brewing Company

Amsterdam Brewery is an independently owned and operated craft brewery that is deeply rooted in the city of Toronto. Founded in 1986, the Amsterdam Brasserie and Brew Pub was the FIRST craft brewery in Toronto to offer patrons hand crafted lagers and ales that were brewed in-house, making Amsterdam a pioneer of the craft beer revolution. Today we brew over ten different beers including our flagship lager – All Natural Blonde, Big Wheel Deluxe Amber Ale and Boneshaker IPA, along with multiple year-round, seasonal and specialty brews from our Adventure Brews series. We use traditional brewing methods using four all-natural ingredients – malt, hops, yeast, and water. All our beers are GMO-free, without preservatives, and are never heat pasteurized. Back to their roots as a brewpub, Amsterdam Brewery now pours its brews at AMSTERDAM BREWHOUSE – where the art of craft beer is celebrated, “where beer meets food.”
