

The mirror has the following features:

- Full body length shots
- Interactive touch screen (animations, games, collage board, a lot of cool stuff)
- Instant prints
- Neon signature on the mirror
- Interactive prompts appearing on the mirrored surface (100s of different animations)

Also includes:

- The guests receive an instant 4x6 print
- The guests also can get the option of emailing themselves the pictures or even texting themselves the
- Party props (different themes available). I offer a lot of props
- Link provided to all the pictures after the event or can be given on a USB

CUSTOM ANIMATIONS

We make custom animations for all our events. We have a special animations person who is dedicated to giving your event that extra unique touch. We have a wide variety of ways we can customize the animations to your event. Our animations set us apart from the competition. You can see the endless possibilities of animations we can do for you by clicking [HERE](#).

CUSTOM TEMPLATES

Your photos can be printed out on 4x6 or 2x6 strips. We have over 100 templates to pick from which we will then customize to your event to give it the finishing touch. Or we can design the template from scratch as well.

ADD ONS

Guestbooks

We can also do guestbooks for you. This would be a \$55 add on where we would ask each guest who takes a picture using the photo booth to sign and leave a personal message. We would organize and take care of the whole process for you. We can discuss this if you are interested in this option.

Photo Frames/ Photo Sleeves

We also offer photo frames for the 4x6 prints that the guests receive. If you are interested in this option, we can provide you a quote. I will attach a picture of example frame for your reference.

PREMIUM BACKDROPS

Other photo booths might offer you the a choice of one or two backdrops, if that at all. Furthermore those are your run of the mill cloth solid backgrounds. We at 6ix photobooths have a ever growing variety of backdrops. We currently have over 10 8ftx8ft seamless tension fabric displays to offer at no extra cost. We includes premium backdrops in our package because they make the pictures really stand out as opposed to regular cloth backdrops so its win win for everyone. These are all patterned designs and we are sure there will be something there for everyone. We can discuss backdrops with you if you have any questions. Furthermore, we have white rose and red rose flower wall which can be added onto any package at a extra cost. If you would are interested in this, you can reach out to us for a quote.
