"I wanted to send a quick note to thank you for everything. The event last night was a huge success, and the duo was absolutely amazing.

They knew all the songs, brought such great energy, and were incredibly fun to have. Our guests loved them. We also truly appreciated how flexible they were with extending for additional time; it made a big difference and really elevated the night.

Thank you again for your support, quick coordination, and for helping make the evening so memorable."

PRIVATE EVENT

70TH BIRTHDAY CELEBRATION

"Kris was incredible to work with when trying to arrange music for my mother in law's 70th birthday party. She made the process seamless. The band we ended up going with was extraordinary.

Adrian Gross and his bandmates were incredible and exactly what we were hoping for. So incredibly talented and cool. A dream to work with and everyone was sad when their three hours were up.

I am really hoping to book them again in the future."
