

DYNASTY EVENTS AND FLORALS

2027 Wedding Flower Guide

Curated floral artistry for intentional celebrations.

WELCOME

To the beginning of your wedding
floral journey

Planning a wedding is a layered and emotional experience filled with meaningful decisions. Your florals should never feel like an item on a checklist; they should feel like an intentional expression of your story.

At Dynasty Events and Florals, we approach wedding design as spatial storytelling. Every floral element is designed in relation to the architecture of your venue, ensuring the space feels cohesive, intentional, and unforgettable.

This guide outlines our creative process, investment structure, and what you can expect when partnering with us for your wedding day.

A BIT ABOUT US

Giulia Brandolisio

Founder and Principal Floral Designer

Based in Toronto, Giulia leads Dynasty Events and Florals with a design-first philosophy rooted in structure, proportion, and movement.

Her work is defined by sculptural forms, layered textures, and a refined restraint that allows florals to enhance, not overpower a space.

Each wedding begins with careful observation: the scale of the room, the quality of light, the architectural lines, and the emotional tone of the celebration.

Rather than recreating fleeting trends, Giulia interprets your inspiration through a tailored lens, crafting immersive floral environments that feel deeply personal and architecturally cohesive.

THE FLORAL ARCHITECT APPROACH

We do not decorate spaces; we design them.
Every wedding we take on is approached as a complete spatial composition.

SCULPTURAL ARTISTRY

Organic forms with intentional structure and movement.

CONSIDERED DESIGN

Thoughtful floral selection based on seasonality, proportion, and environment.

REFINED EXPERIENCE

A seamless process from first consultation to the final installation.

The result is florals that feel integrated, elevated, and emotionally resonant.
