

Destination

A single word that says so much...
Destination + Wedding says so much more!

There are so many beautiful destinations in life, not just places—but love & marriage are their own special destination.

Special days like this are carefully chosen, knowing they'll be filled with precious memories. As a couple it's a new beginning, focusing on each other, the destination.

If you have a destination wedding in mind, we would be honoured to come alongside you, taking care of the legalities for free—when you plan your ceremony with us!

Don't guess at what's on the other end waiting for you...

Enduring Promises offers a **Mobile Ceremony** package that is easy to slip into your suitcase!

How does it work?

- We will legally marry you before you leave for your destination wedding. Omitting the different requirements for legal marriage in other countries.
- With your special destination in mind, create a personalized, just-for-you, wedding ceremony with help of your chosen Officiant and our wedding portal.
- We will spend time coaching a loved one of yours, using the ceremony you created, to perform the wedding on your special day. (No guessing who would otherwise perform the ceremony or needing the aid of a translator at your wedding.)
- We are here for you and always ready to help, one phone call away!

Destinations are about the journey, let us help you on your way—we promise, we won't take up too much room.

Pack Enduring Promises!
Enduring Promises, your award-winning Wedding Officiants

**P.S. If you'd just like to take care of the legalities before you leave,
we'd be happy to help with that too!**
